Dr. Turner - CSE 405

2020 Apr 23

CSE 405 - Apr 4/24 Progress Report

Grading Scale:

A: "Successfully upload 5 5-7 minute videos to my YouTube channel"

B: "Successfully stream with at least 5 viewers for 2 hours"

C: "Successfully create social media links to everything on my [twitch.tv](https://www.twitch.tv)"

D: "Set up my computer to be ready to stream and edit videos"

I successfully added website links to my social media pages on my twitch.tv account.

This is simply done by using:

```

```

and

```
<a href="HTML link/">Website Name</a>
```

The code is as follows:

```

```

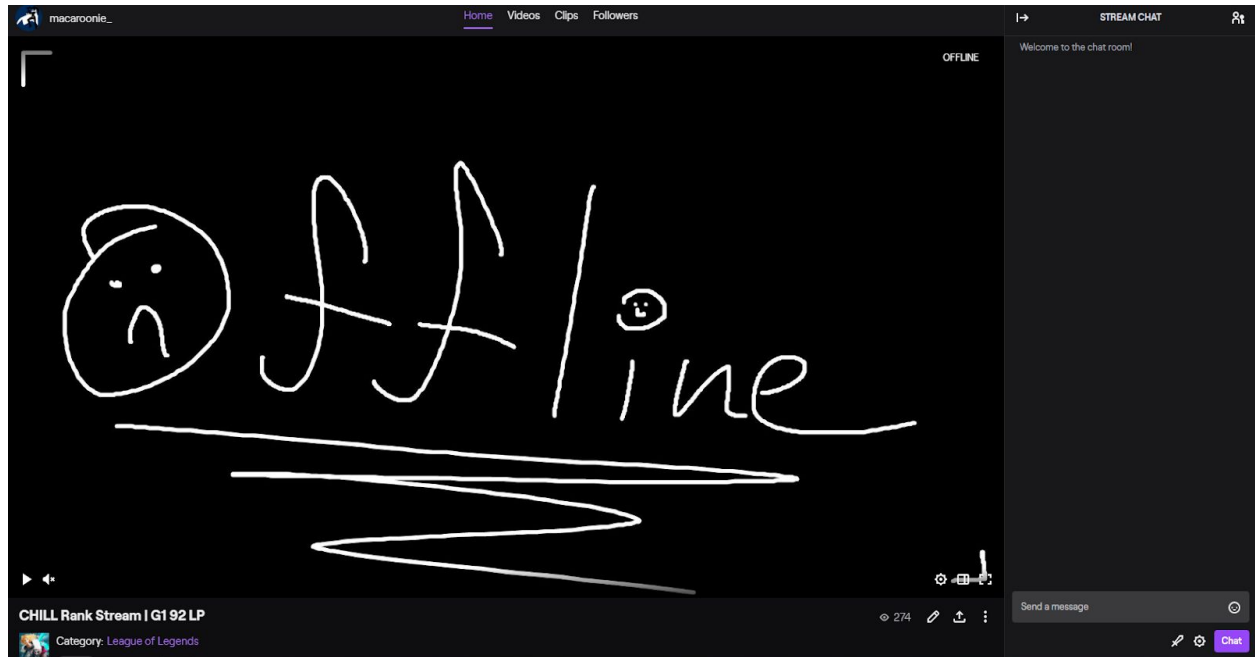

```
<a href="https://twitter.com/macaroonie_/">Twitter</a>
```

```
<a href="https://www.youtube.com/channel/UC0vG6Y7MqPoubWp4eenz9-Q/">YouTube</a>
```

```
<p>Discord coming soon</p>
```

C: "Successfully create social media links to everything on my [twitch.tv](https://www.twitch.tv/macaronie_)"

As explained in the previous page, I have created social media links on my twitch.tv that links to my other social media accounts. I believe that this is sufficient enough for me to achieve a C grade.

The twitch channel itself is coming together, there is a nice cohesive sketched theme to the channel.

The next objective here would be to amass a 2 hour stream with at least 5 viewers, which could prove to be quite difficult as I have to be continuously entertaining for 2 hours.
