Dr. Turner - CSE 405

2020 May 5

CSE 405 - Apr 4/24 Progress Report

Grading Scale:

A: "Successfully upload 5 5-7 minute videos to my YouTube channel"

B: "Successfully stream with at least 5 viewers for 2 hours"

C: "Successfully create social media links to everything on my [twitch.tv](https://www.twitch.tv/macaroonie)"

D: "Set up my computer to be ready to stream and edit videos"

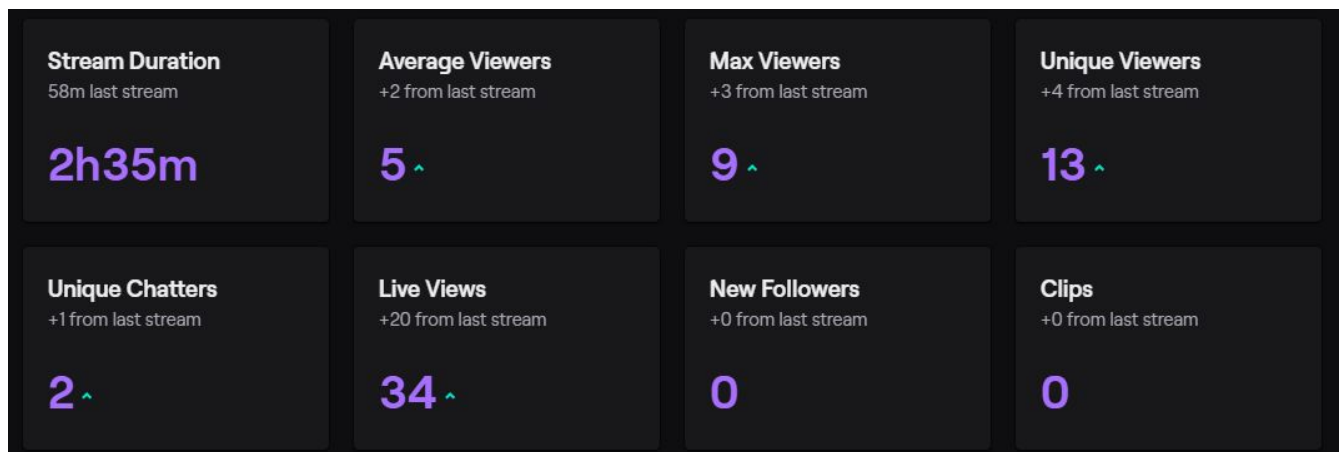

Regarding your previous comments where you asked for clickable links that would lead to my websites here they are:

Streaming Platform: <https://www.twitch.tv/macaroonie>

Twitter Social Media Account: <https://twitter.com/macaroonie>

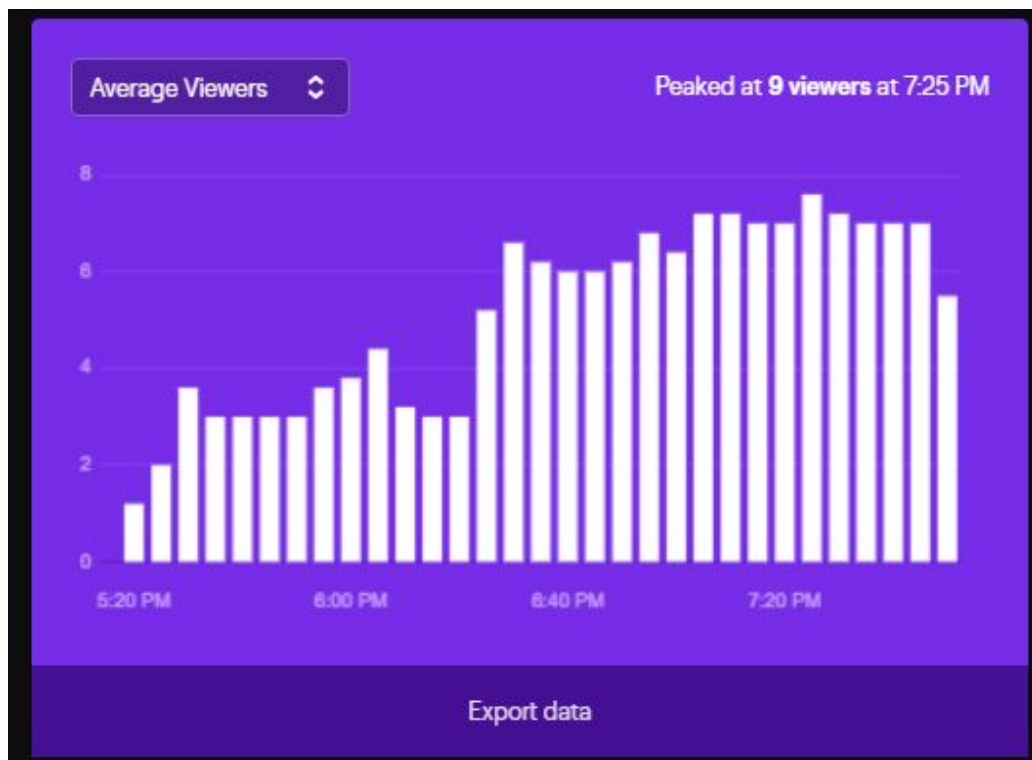

YouTube Channel: <https://www.youtube.com/channel/UC0vG6Y7MqPoubWp4eenz9-Q/>

I was unable to report anything worthy of progress for the week of 5/1 as I was unable to achieve any meaningful goals.

However, as of 5/3, I have reached one of the goals where I successfully streamed with 9 max viewers on the stream with an average of 5 viewers throughout the entire stream. This fulfills the goal:

B: "Successfully stream with at least 5 viewers for 2 hours"

This graph details a more accurate display of how viewers gradually came into my stream. I started streaming around 5:00 PM and I managed to hit 5 viewers at around 6:20 PM. From there I received more viewers than anticipated at around 6:30 PM. Maybe this was due to the content I was streaming as me and my friends were currently participating in a tournament.

As I have reached the previous goal as stated before, I believe that I meet the requirements to receive a B grade in this class.

The last goal that I need to complete is being able to use the recorded content from my streams and possibly record new content to create 5 different 5 to 7 minute videos and upload them onto my YouTube channel. This may prove to be quite difficult as I am fairly new to video editing and it may take me a while to finalize the production.
